Kolloquium

Prof. Dr. Gerhard Wellein
Professor for High Performance Computing
Head of NHR@FAU
Department of Computer Science
Friedrich-Alexander-Universität
Erlangen-Nürnberg

Dr. Georg Hager
Head of Training & Support
Erlangen National High Performance
Computing Center (NHR@FAU)
Friedrich-Alexander-Universität
Erlangen-Nürnberg

The National High-Performance Computing Alliance and NHR@FAU: New Structures and Opportunities

physikalisches

Mo. 19.12.22
16:00 Uhr
Ort: H34 &
go.ur.de/Koll

The talk gives an overview of the ideas behind the NHR Alliance. The NHR Alliance is a new national network that bundles the resources and competencies of university high-performance computing and makes them available to scientists at German universities free of charge.

Beyond the nationwide "big picture", we detail the resources, activities, and application process at Erlangen National High Performance Computing center (NHR@FAU).
